

Winterpills, Hide Me

Hide Me

hide me

Tell everyone where I am but please hide me
Tell everyone where I am but please hide me
sell everyone the map's to what's inside me

You run so fast

You wave me past

only time will tell

I drive around

some bar bound

trapped in this long farewell

and i don't know who to tell

hide me

Tell everyone where I am but please hide me
Tell everyone where I am but please hide me
sell everyone the map's to what's inside me

my memory's bad

i can't add

was this that sad motel?

In my mind

I'm trying to find

The place where we both fell

and i don't know who to tell

hide me

Tell everyone where I am but please hide me
Tell everyone where I am but please hide me
sell everyone the map's to what's inside me

hide me

hide me

hide me
