

Winterpills, Lay Your Heartbreak

Lay your broken body down
Lay your heartbreak
Everything is gonna change
Everything is wrong

Wrong people are being loved
Wrong ones dying
Wrong ones always take control
Have you heard from her today?

You could make me feel so good
If you'd come here and cry
You'd make me feel so good
If you'd come here and cry
You'd make me feel so good

She may never take the cure
She's been through that
She would rather not be pure
Than to be alone

Lay your broken body down
Let your heart break
Everything is in a code
Language sleeping like a stone

You could make me feel so good
If you'd come here and cry
You'd make me feel so good
If you'd come here and cry
You'd make me feel so goo
