

Wise Guys, Little Sweet Loving Girl

When I'm alone and I'm feeling blue
the only thing that I can do
is to think and dream of you
because I know there can't be anyone else
to make me feel the way you do (yeah,yeah)
and there is nothing sweeter to do (my little baby)

You are my little sweet loving girl
and I'd do anything to please you any time
you want me to
oh, baby please let's stay and roll in the hay
and make our love both night and day (yeah, yeah)
I'm gonna kiss your worries away, my baby

Tell your boss you're off on a holiday,
we can bolt and lock all the doors!
Tell your mum you ain't coming home today,
live it up, having a good time

You know it isn't so long ago
before you set your mind on me
and then I fell in love with you
and now I know there can't be anyone else
to make me feel the way you do (yeah,yeah)
and there is nothing sweeter to do (my little baby)

Now in the morning your getting up
and then you putting on your T-shirt and your skirt
and you comb your hair,
so when I see your body I'm fainting away,
let's make our love both night and day (yeah,yeah)
I'm gonna kiss your worries away (my baby)

Tell your boss you're off on a holiday
