[Chorus]

To the Island Koneelalee, baddest bitches that you ever wanna see  
Island Koneelalee, baddest bitches that you ever wanna see

Uh, EJ on a Monday, the day after Sunday  
Desert island we travel to, such a fun day  
There some girls there, its like a whole world there  
I first saw her dance in a holy temple  
To a piano instrumental  
Her people watched her every move  
I sat and watched, damn, she makes me wanna drool  
I want to take you to a new school  
The doctors got a new set of rules  
Cool? Smile, shorty got a lotta  
And I just knew it, it was something Godly about her  
Could it be a virgin, nah  
Pretty little Persian looking something else with it  
Ah, almost like candy when you bit it  
She had a look that said come widdit, I wont forget it  
Island Konee, my first time there  
I knew Id be back, this little chick had some flair  
Looooonnnng hair  
Im thinking Im looking at a Goddess when I glare  
Pure thoughts, body, her soul is with God  
You see you want to be a part in her life  
Make her one of my first wives  
Shell be my only every night when the moon flies  
Explore the mind every other hour  
Godly nigga grows a woman like a flower  
No more Seven-Thirty-One, Silver Fox  
Your spot where your freaky freaks flock  
One day I might just travel back to that island  
Hope that little old Persian is smiling

[Chorus]

I wanna see you in a long T-shirt  
But you be tripping, girl, while Im spitting, girl  
Night time, dim the lights, Im fin to hit you up right  
No cost, let me take your long T-shirt off  
Naw, keep it on, one last look before I start this love jones  
One on one, nobody else in sight  
Fuck going to that Blue Flame tonight  
Your game is tight, blood rushing to my head  
Every time I see them legs, plus them thighs  
And I wont even hide it  
Passing you by make my heart beat fast  
You sexy ass, with your long T-shirt  
Plus youre real groovy in your business skirt  
Its gonna, gonna really really hurt  
When I stick it in, mix it in  
On this island, dancers onstage  
The most beautiful women of all shades  
They here from Brazil, Jamaica, Texas  
Chicks with cheese in they Lexus  
Like Atlantas breeze I like em wild  
With only meeee  
Able to see some shit other niggas cant see  
Island Koneelalee  
Badder than all yall skinny models on TV

Island Koneelalee, baddest bitches that you ever wanna see  
Island Koneelalee, every man should wanna come see
