

Witchery, The Hangman

Let me take you to the promised land
I will lead you there by the hand
Feel the cold that pours out from my soul
(where) I will take you - you will need no more
Place your trust and only faith in me
I'll step in and I will set you free
I'm the hated I'm the so called mean
But I don't judge - you are indifferent to me
Sleep a lifetime - Die an eternity
Deathrider in the sky
Place your trust and only faith in me
I'll step in and I will set you free
I'm the hated I'm the so called mean
But I don't judge - you are indifferent to me
