

With Broken Wings, Goodbye

Time goes by just waiting here to say goodbye,
Its just another day gone by, And I cant seem to get it through to you,

So just sit out their a little longer,
Its fine with me, But your not here,
To say goodbye its time right now,
You've wasted time

You give in to face the truth,
That I am here for the last time,
Can't you see that Im just waiting here,
Nothing passing me by,

So just sit out their a little longer,
Its fine with me, But your not here,
To say goodbye its time right now,
You've wasted time,

And when your lonely you won't see my face again,
You can't find your way back,
Its all come to an end,
This is my goodbye that you'll never hear again,

So just sit out their a little longer,
Its fine with me, But your not here,
To say goodbye...
