

# Within Temptation, Restless (Classical Version)

[Bonus track]

She embraced, with a smile  
As she opened the door  
A cold wind blows, it puts a chill into her heart

You have taken away the trust,  
you're the ghost haunting through her heart  
Past and present are one in her head,  
you're the ghost haunting through her heart

Take my hand as I wander through  
All of my life I gave to you  
Take my hand as I wander through  
All of my love I gave to you

You have taken away the trust,  
you're the ghost haunting through her heart  
Take my hand as I wander through  
All of my life I gave to you  
Take my hand as I wander through  
All of my love I gave to you
