

# Within Temptation, Sounds Of Freedom

Your call is coming  
I'm dreaming away  
For what lies hidden  
It needs to be found

Sounds of freedom make me want to try

When the ghosts are found  
They will lead us to tomorrow  
Sounds of freedom make me want to try

Voices forgotten  
I hear them close by  
Ghosts from the past I can see through their eyes  
Are these the ancestors leaving me signs?

Sounds of freedom make me want to try

When the ghosts are found  
They will lead us to tomorrow  
Sounds of freedom make me want to try

The sounds, they are all around  
Forces start moving out  
Taking sides, though there's so much  
That I need to know  
And soon it will be shown

Sounds of freedom make me want to try

When the ghosts are found  
They will lead us to tomorrow  
Sounds of freedom make me want to try

When the ghosts are found, they will lead us to tomorrow  
When the ghosts are found, they will lead us to tomorrow

If we could restart how it was before tomorrow
