

Wiz Khalifa, Big Screen

This the top?
Oh yeah, the tippy
It's young Khalifa, man
Yeah
I see it clearly, the money that is
Oh, ya'll niggas ain't in the way
Keep doing what you doing
See right through you, yeah

Got me drinking out the bottle
Living for today, ain't thinking about tomorrow
Niggas fake, I can see it with my eyes closed
In desperate need of a leader so they follow
And me, I only see Chavo
I roll a bleezy and hit it like a high note
My skin tough as a rhino's
So keep hating, I keep dating these dime hoes
Diamonds on my neck
Got diamonds on my chain, yeah
City or your state
Catch me mobbing with my gang and
Nigga violated, they won't hesitate to aim
And I got enough change
To afford the price of fame
I'm like poison to ya'll lames
Or drugs with prescriptions
Turn my music on, get a buzz when you listenin'
You want 'em then pay for 'em
And niggas talk fly, but I'm space gone
Up out of here

I never sleep, but I got big dreams
A little nigga, I do big things
You know it's everything that it seems
They say my life is like the big screen
Big screen
I fill my bank with every 16
My money straight and my bitch mean
You should wait and get a ticket please
They say my life's like the big screen
Big screen

I feel like a desperado
On the track I just kick it like Rallo
See me on the TV
Yeah, I be in grind mode
But please believe
I'm in the streets like potholes
Antonio, no guitar though
Only instrumental is that pistol
Need a right hand so I fucks with Chevy
And underneath the wing so I hustle heavy
Tatted on my face, chest, neck, hands, stomach
Been on a paper chase since that cake start runnin'
Never touched a brick, I ain't never slung a drug
Still get a feeling when I see that gold car comin'
Got my pops old soul, I'm a 80's baby
Moms smoke hella weed, I'm a wavy baby
You mister me too and you need fuel, man
You niggas see through, air

I never sleep, but I got big dreams
A little nigga, I do big things
You know it's everything that it seems

They say my life is like the big screen
Big screen
I fill my bank with every 16
My money straight and my bitch mean
You should wait and get a ticket please
They say my life's like the big screen
Big screen

I never sleep, but I got big dreams
A little nigga, I do big things
You know it's everything that it seems
They say my life is like the big screen
Big screen
I fill my bank with every 16
My money straight and my bitch mean
You should wait and get a ticket please
They say my life's like the big screen
