

# Wiz Khalifa, California

I'm just smokin a trippy stick on this one  
OG Hash Oil

Roll a joint, roll another one  
When it's all said and done  
I'll be at the top bitch  
Cause I hustle a lot  
Them cars, we pulling 'em off the lot  
Don't even test drive it before I cop  
Just boarded a yacht  
We're at the craps table in Vegas  
The dealer saying how he admiring my watch  
I'm placing my wager  
Don't even care how much paper I blow  
Cause how to get this money and stay on  
A couple things that I know  
I'm blowing that stink by the O  
My weed so strong I swear to god you would think it's cologne  
I go anywhere in the world and just make it my home  
Staying at the highest level but I ain't make it alone  
Now that my money right them suckers keep thinking I'm wrong  
But I'm just switching lanes, foot off the brake and I'm gone  
If you ain't talking money homie, you can't get a call  
Cause this a muthafuckin life that you can't live at all  
I'm getting high while I drive, I ain't thinking of y'all

I just wanna ride in my ride with my top down  
And smoke weed with my niggas  
I just wanna ride in my ride with my top down  
And smoke weed with my niggas

Still rolling weed on my XXL  
Only difference is that's me on the cover  
Once in a while call my little sister and tell her I love her  
Cause shit can get crazy in this industry  
Most of your friends become your enemies  
That's why I stay down with the ones that's been with me  
The niggas who started and they down to ride to the end with me  
Make sure the positive energy keep flowing  
All the weed keep rolling  
And all of us keep getting high, the sky  
We gonna keep from falling  
Niggas keep hating, but baby I'mma keep ballin'  
A lot of y'all turned fake, cause you found out what I make  
Now I'm buying estates  
Going on private island vacations  
Flying on private planes  
I'm cool with the pilot, he let me roll something  
Put on a movie, let my girl watch it  
At the dealer, high, lookin' at that Ferrari options  
Just an everyday life, when you young and bossin'

I just wanna ride in my ride with my top down  
And smoke weed with my niggas  
I just wanna ride in my ride with my top down  
And smoke weed with my niggas

It's a cohesive thing  
But the focus is still getting my thing out there  
And to have people understand  
This is the world that we're creating  
And it doesn't exist without all of us
