

Wiz Khalifa, Chance To Get Out

I'm the type of nigga that can make a call, but I do it all myself

Real one and a boss, that's all I'll be
Money and my family, that's all I need
Handlin' my business, enjoyin' my weed
Worry 'bout yourself, man, don't worry 'bout me
Whole lotta dispensaries, whole lotta investments
Whole lotta Ferraris, please, whole lotta new jets, yeah
They know 'bout the old me, they don't know me yet
I know where I'm going, so it ain't no holdin' back, yeah

By the time you hear this one
I'll already be a hundred miles in the wind
By the time you niggas catch on
I'm already on my second lap, doing it again
By the time you niggas roll up
I already got another pound comin' in
Every time you niggas look up
I'm probably gettin' another car and another crib

Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business

Real one and a boss, that's all I'll be
Money and my family, that's all I need
Handlin' my business, enjoyin' my weed
Worry 'bout yourself, man, don't worry 'bout me
Whole lotta dispensaries, whole lotta investments
Whole lotta Ferraris, please, whole lotta new jets, yeah
They know 'bout the old me, they don't know me yet
I know where I'm going, so it ain't no holdin' back, yeah

Ain't no holdin' back when I'm blowin' on this pack
Money come in racks, so you know it's gonna stack
Goin' kinda fast, so it's ashes on my lap
Focused on the bag, so my bros ain't gon' relax
Throwin' money, so she gon' be doin' back bends
Ain't no talkin' anymore, we want some action
Lotta game, if you got some questions, then ask 'em in
Lotta practicing for my team, so we have to win

Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business (Every year)
Time to get back to business, time to get back to business

Real one and a boss, that's all I'll be
Money and my family, that's all I need
Handlin' my business, enjoyin' my weed
Worry bout yourself, man, don't worry 'bout me
Whole lotta dispensaries, whole lotta investments
Whole lotta Ferraris, please, whole lotta new jets, yeah
They know 'bout the old me, they don't know me yet
I know where I'm going, so it ain't no holdin' back, yeah
