Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel

Hotel smoked out  
I ain't going nowhere  
Leaving in the morning  
Cleaning lady picking up roaches, so she don't care  
How I move so player? G Pen, mid-air  
High school I was getting high  
Teacher say I was going nowhere  
Now I'm worth millions that's the worst feeling  
Said fuck a job bought the building  
All these fake niggas where the real ones  
First-class no shoes, young nigga I got no rules  
6'1", no roof, go hard won't lose  
And you know the truth, I got more to do  
Already made history once  
Fuck I'm supposed to do?  
Big bag, no seeds  
Yeah I rap and I grow weed  
When you this great, niggas don't hate  
It's about dollars so it can't wait

Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel  
Know that shit'll get real in that city of steel

Break down the gas roll another one  
Puff one J, roll my brother one  
Already stoned and I'm almost home  
If you high then you know where I'm coming from  
KK feel it all in my lungs, one puff damn got me going numb  
Everywhere I go niggas want some  
(Damn, man let me get some of that shit)  
No, high all day I ain't coming down  
Take two pulls then it's going round  
Since a young nigga I been blowing pounds  
Always in the sky I ain't on the ground  
Jump in the ride about to blow a cone  
Niggas at the crib so I'm solo  
Take this half-ounce to the dome  
Smoke this hash out of the bong  
Don't choke don't pass out until the morning  
In the club throwing cash out 'til it close  
And I stay with the pack on any coast  
KK cut down to a clone  
Gameday touchdown Randy Moss  
Say we just ran out so we getting more  
We gone smoke 'til we ain't got anymore  
Don't just roll one roll plenty more

Know that shit'll get real in that city of steel
