

# Wiz Khalifa, I'm A Star

See there's a big difference  
Between the star life, and your life  
Me, I live the star life  
You smell it when I come through

When I come through watch me put my game on  
Fresh from my head down, big ass chain on  
This my life and stars shine bright  
Yeah I am a star, look inside my car  
They know who I am I'm seeing 'em from afar  
Don't act like you know, I know just who you are  
Admit it or you don't 'cause baby I'm a star

Yeah  
And you know that, but you can't stand it  
Out of this world I'm from a different planet  
See how I landed?, big ol' chain on  
Tight ass white tee, black Chuck Tays on  
I make great songs, my shit classic  
See ya'll CD, walk right past it  
Call me acid that's how I do ya'll  
Heat niggas up 'til I can see right through ya'll  
Never slipped out, goons right by me  
Hear niggas talk shit but they don't try me  
Can't do front door, don't got I.D  
Straight up the elevator to the V.I.P  
Drink my drink up, blow my weed smoke  
Bitch don't say shit, let my team poke  
'Bout my money, you see me grinding  
There go a hater, you see me shinin'?

When I come through watch me put my game on  
Fresh from my head down, big ass chain on  
This my life and stars shine bright  
Yeah I am a star, look inside my car  
They know who I am I'm seeing 'em from afar  
Don't act like you know, I know just who you are  
Admit it or you don't 'cause baby I'm a star

Rocks in my charm look like boulders  
Young and rich so my hoes much older  
Me I'm cleaned up, tats all over  
Know I'm getting it. Home girl told her  
No not sober, need my weed lit  
Keep my blunt rolled, ain't no secret  
Blow like 3 zips, me and po run  
Brand new Guccis, big ass chain on  
Where my plane goin'? Down Miami  
Sun gon' tan me, palm trees fan me  
Taking pictures where my fans be  
Niggas sit down, they can't stand me  
Straight from the Burgh', Taylor gang my family  
Hustle heavy that's why we caking  
Get my shine on that's why they're hating  
As soon as I pull up ya'll can't say shit

When I come through watch me put my game on  
Fresh from my head down, big ass chain on  
This my life and stars shine bright  
Yeah I am a star, look inside my car  
They know who I am I'm seeing 'em from afar  
Don't act like you know, I know just who you are  
Admit it or you don't 'cause baby I'm a star
