

# Wiz Khalifa, In The Air

You've been lost with them rookies  
Young Khalifa on this pro shit  
So sick of standin still I could get you in motion  
Trips out in the sand  
Rollin swishers by the ocean  
Toastin, private seats on the cloud and we ghostin  
Used to play the low  
Now you can't help but get noticed  
Startin to get approached and your  
Girlfriends gettin nosey  
Still you hold me down  
Hold me down ain't 'fraid to show it  
I know she someone I can grow with

Girl I wanna know, girl I need to know  
If you really with me, if you're not then you can go  
Girl I wanna know  
Would you tell me a lie? No  
If you ever leave my side, no  
Would you play with my time? No  
If you rider put em  
In the air

Tell me what's your name  
Here's my number you can call me  
Can't deal with a wife  
But you can be my little shorty  
I can be your star  
We can kick it out in orbit  
Or get done with this  
Flip somewhere and record it  
Says she got a man  
But her man she gettin bored with  
Love me cause I grind  
She don't mind where I be tourin  
Don't got lots of time, therefore  
I can't be your boyfriend  
I'm more than in the air, soarin

Girl I wanna know, girl I need to know  
If you really with me, if you're not then you can go  
Girl I wanna know  
Would you tell me a lie? No  
If you ever leave my side, no  
Would you play with my time? No  
If you rider put em  
In the air

I won't be excited to sit at home  
Waitin to hear the phone ringin  
No, oh, oh, I won't  
Even though I'm in love with you  
Yes I'm in love with you  
Girl I'm hopin that forever we'll be tight now  
Let me put in on the table for you right now

Girl I wanna know, girl I need to know  
If you really with me, if you're not then you can go  
Girl I wanna know  
Would you tell me a lie? No  
If you ever leave my side, no  
Would you play with my time? No  
If you rider put em  
In the air
