

Wiz Khalifa, No Chaser

Straight shots, we don't want no chaser (No chaser)
No lame shit (No lame shit), straight player (Straight player)
Pour a drink, put your hands in the air (In the air)
Roll a joint, put your hands in the air (In the air)

You don't gotta call your girls they right here
You've been workin' out, so that thing feel real good
Come put it on me (Okay), it's been a while
Say you miss me

You be ridin' in my ride, old school
You be lookin' at my wrist, so cool
Had to get rid of that nigga, old news
We be smokin' by the ounce, roll two
Got you rollin' out the pound, real stoned
Say I got you glowin' up, real grown
Ain't like bitches say emotions you don't feel those
Been a minute since we spoke but we still close (Still close, still close)
Our empire, we gon' think about that
Come to mine, she gon' break her whole back
Say the go, we attack, she ain't goin' nowhere, she attached

Straight shots, we don't want no chaser (No chaser)
No lame shit (No lame shit), straight player (Straight player)
(Whatever you do for me, it's about what you do for you)
Pour a drink, put your hands in the air (In the air)
Roll a joint, put your hands in the air (In the air)

You don't gotta call your girls they right here
You've been workin' out, so that thing feel real good
Come put it on me (Okay), it's been a while
Say you miss me

I could see it inside your face, you got a lotta taste
The bad bitch like you need her whole body laced up
With diamonds rings and such
Nigga make the wrong move, then he will get touched
Got you leavin' out the crib, lookin' all dressed up
Bring it all back, but you don't stop, you can't get enough
Hundred dollar joints, name on our cup
Royal flush, new owners of the club
Only fifties and hunnids, no we don't do dubs
Not even on our whips
Come out on a Saturday and I can show you scrubs
Takin' shots, when she was supposed to be with cuz
From the gate, I knew just what it was

Straight shots, we don't want no chaser (No chaser)
No lame shit (No lame shit), straight player (Straight player)
Pour drinks, put your hands in the air (In the air)
Pour drinks, put your hands in the air (In the air)

You don't gotta go, girls they right here
You've been workin' out, so that they feel real good
Come put it on me (Okay), it's been a while
Say you miss me
