

Wiz Khalifa, O.N.I.F.C.

God damn, I'm rich as fuck, drunk as hell
Throwin' money, pick it up, life is good, live it up
How much for that bottle? Put it on my tab
Hop out like a model all them foreign tags
Get so drunk and high, I'll have to call a cab
You won't end up giving it back if you had this for one night

One night
One night
One night
One night
One night
One night
You could have this for one night
One night
One night
One night
One night
One night
One night
Let you try it for one night

Ooo, we in the club goin' bizzurk
My OG sippin' on that sizzurp
I mix the OG with the pizzurp
I O.D. spilled it on my shizurt
Drinking Bombay so I'm slizzered
My diamond chain lookin' like a blizzard
So many rings, my fingers startin' to hizzurt
If you didn't know me you'd swear I had that Wizard
And I'm from Pittsburgh

Roll one then I'll light it, order one and I'll buy it
If it's green then I'll try it, too drunk to now drive
Don't know where I'm going, all I know is I'm flyin'
And that's as real as it gets, make you feel like you the shit for one night

One night
One night
One night
One night
One night
One night
You could have this for one night
One night
One night
One night

You're in the tabloids, so that's another pressure
So it's the business, it's the celebrity
And then you gotta make the same music
That you used to make

Yeah. You know, what inspired me back then
Is the same shit that inspires me now
And it's just life
You know, like what I hear, what I see
I'm really sensitive to everything that goes on around me
And I really don't think too much about shit
