Young niggas in this bitch  
Trippy ass niggas in this bitch  
Rich icons muhfucka  
Creative motherfuckin' genius  
And I don't give a shit  
Street up

Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane

Nothin' but gin in my trippy cup, pouring more, I can't get enough  
Young Khalifa on that hippie stuff, I break it down and it lifts me up  
So much shinin', so much diamonds, all that there comes from so much grindin'  
So much weed up in my lungs, I'm in the air, I'm somewhere flyin'  
In your town I cop me a pound, show me one and I'll roll one  
All my niggas straight drug addicts cause it takes one for you to know one  
Bake somethin' and never hold none, young niggas with some old lungs  
Catch me out at your college campus, weed rolled with a cold one  
Outside with my new car, my Chally parked by my old one  
Got a couple of Rollies dawg, but I'm usually rocking a gold one  
Catching flight on them private planes, Ferrari doors I close 'em  
Don't talk a mil', you ain't sold one, don't talk a pound, you ain't smoked one

Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane

Smokin' and sippin' while watching hoes strippin'  
Poppin' and rollin', I'm chieffin' this potent  
Dope by my side with the pistol and chopper  
Got from my bitch and she get from her mama  
Talking like this, I be walking like this  
Sold a few hoes and I bought a new bitch  
Taylor Gang niggas the number one chieffas  
Smokin' on gas proolly louder than speakers  
Mix with the hash, dip in the lean blue dream, I'm a fucking fiend  
Standing on Fairfax getting smoked out with them niggas from Supreme  
Trippy sticks, bong rips, blunt dip, I'm down to do whatever  
She wanna pop a molly man, Juicy J gon' fuckin' let her  
For a stronger strain I'm spending bands, this ain't no reggie  
When it's 'bout this gettin' high, ain't nothin you can tell me  
Xanax bars, beans and syrup, that's my trippy kit  
I'm like a pimp in the club working your bitch

Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane  
Roll it up, light it up, have a puff, let's take a plane

I don't like to say I because we're a collective  
Sledgren makes the beats and fuckin' Cardo  
Or Jerm does the engineering  
Or me and Chevy sit around and talk about shit  
And come up with shit  
We made it comfortable for a lot of people to do  
Like what they're doin' and feel cool doin' that shit  
So what we're gonna do with this mixtape is  
Really just turn it around and step that up
