

Wiz Khalifa, Wit The Kids

Drugs are menacing our society!

I'm here
No way to tellu s no
No fear!
They try to reach us,
But they don't know
What you fighting for!
What side you on
Ah if I had my way I'd buy peace and change
If I had my way we'd all spread love,
There'd be no hate
Now scream it out one time
I don't want to feel one time
They fuc* with the kid, kid
Ain;t trying let us live
Break the mold to keep your mi9nd clear
They fuc* with the kid, kid
Ain;t trying let us live
The real they don't esnt us to be it
They fuc* with the kid, kid
Ain;t trying let us live
The truth, they don't want us to see it

Fuc* up out of here
Happiness comes from all this
Most of us ain;t gotta care
They'll never understand us
Anybody got a problem
Say something!
Anytime you got a problem – face them
Their parents want to know what is going on here

They fuc* with the kid, kid
Ain;t trying let us live
The real they don't esnt us to be it
They fuc* with the kid, kid
Ain;t trying let us live
The truth, they don't want us to see it
