

# Wolf, Demon

When you search for your inner light and you've opened every door  
I come to see you again, like so many, many times before

I am the demon, in your mind, I will make you blind  
I will make you blind  
It's like you're dreaming, and I'm scheming to stay inside your mind  
Inside your mind

So you dare to raise me again  
In the cold embrace of night  
I'm your guide and your flame of life  
I'm the edge of a sharpened knife

I'm liquid fire, I am here to eat your flesh and mind  
Your flesh and mind  
I have the answers to your questions, seek and you shall find  
Yes, you shall find

Now drink this holy cup of poison  
Hmm, drink this blood of mine  
And I will ease your pain, just let me be  
Inside your veins

Don't you worry 'bout tomorrow  
Perhaps tomorrow never comes  
When you are lonely in the dark, the only friend you've got  
Is me

I am the demon in your mind, I have made you blind  
I've made you blind  
It's like you're dreaming, and I'm scheming forever in your mind  
Inside your mind

I'll take you away to my dark domain  
No worries now I'll ease your pain

I leave you there on the other side  
I'm through with you my work is done

It's the end and finally  
All of you belong to me

Finally

You belong to me
