

# Wolfchant, I Am War

[I.]

The years they past and one day follow the next,  
We live withdrawn in the forests 10 years now passed  
Since we were attacked and had to flee into the mountains  
So I cannot live on, like an animal on the escape  
And my son I must convince, we must fight this time  
Equivalent this evening I will tell him of my plans  
Because he spoke ever more to go into war  
He was inspired of my suggestion.

[Chorus:]

I am war can you see  
I am your force look at me  
I am the fear in our enemies eyes  
I am the Thunderhawk who never dies

[Bridge:]

Also the soldiers were inspired of this plan  
We want to rather die than our country to lose  
We must go to Ashwood, here the clan is weakest  
We must convince the inhabitants to fight; we are stronger than ever before  
The people must know that a member of the elders is still alive  
On a hidden place in the forest we want to met.  
Here I will speak to all, the falcon on my arm.  
I am blessed by Odin and I will show you the way

[II.]

Now the night had broken in, 1000 men had met  
Oh Odin be by my side, they all must follow me  
And Odin appeared Aahr in shape of a falcon  
For the years in which you were faithful to me, I will now recompense you  
I feel it your power is in me, we will be victorious  
Befriends the time is come to stop our pain  
Again we all should take the weapons  
I be blessed by Odin and I will show you the way

[Chorus:]

I am war can you see  
I am your force look at me  
I am the fear in our enemies eyes  
I am the thunderer who never dies
