

WOLFHEART, Ancient Cold

Silence screams without a voice
Shatterproof alliance
Between death and silence

Fields are deserted
Earth is frozen to the core
Ice has reached the ocean floor

The nature's way to trial the perseverance
To test the strength of resistance
The northern way to build determination
Tolerance for pain to build resistance

The fight against the fall
The race against the cold
Dark shadows of the winter is closing

The fight against the fall
Against the ancient cold
Last shadows of the winter is closing in

Bare are the trees
As far the eye can see
In the world forsaken

Knife like edge of ice
Cuts with cold to the bone
Freezing breeze like a gale of nails
Cause of the searing wounds

Sharp claws of the cold will sever
The nerves from the spinal cord
The pain sense to exist
Paralysed peripheral receptors
