

# Wolfsheim, For You I'm Bleeding

Here I am  
Darkness night  
is masking the cold  
that embraces me

Can't you see  
truth means fear  
Your lying breath  
never will resist

Alone I sit here waiting  
Watching the world  
in it's agony

Because I have seen  
my future  
my crying face  
No cure I'm longing for

And no healer  
heals the evil  
I sought truth for you  
condemned to fail

For you, for you  
I'm bleeding  
And every new dawn  
ends in bitterness ...
