

Wolfsheim, For You I'm Bleeding

Here I am
Darkness night
is masking the cold
that embraces me

Can't you see
truth means fear
Your lying breath
never will resist

Alone I sit here waiting
Watching the world
in it's agony

Because I have seen
my future
my crying face
No cure I'm longing for

And no healer
heals the evil
I sought truth for you
condemned to fail

For you, for you
I'm bleeding
And every new dawn
ends in bitterness ...
