

Womack Lee Ann, When The Wheels Are Comin'

We started down this road together
It was paved with hope and dreams of forever
We've been coasting for a while
And you act like nothing's wrong
But even I can tell when the wheels are comin' off
What isn't taken care of falls apart
Now we've got a pair of neglected broken hearts
We may get another mile or two before somebody walks
But even I can tell when the wheels are coming off
(Chorus)
You've got to help me fix this
Oh, it's time to face the facts
We can't go on like we have been
And it's too late for turnin' back
When it comes down to what makes love work
I'll admit I'm lost
But even I can tell when the wheels are comin' off
(repeat chorus)
When it comes down to what makes love work
I'll admit I'm lost
But even I can tell when the wheels are comin' off
