

Wondermints, Don't Go Breaking My Heart

La, la, la, la

One drop of rain doesn't make the sun run away

Don't go breaking my heart

One falling leaf doesn't make September in May

Don't go breaking my heart

I made a mistake

Now must I make a mountain out of a grain of sand

Don't throw love away

Because I went astray for awhile

Teach my heart how to smile, oh

One sad goodbye doesn't mean we can't love again

Don't go breaking my heart

My love will last till the stars fall down, even then

You'll remain in my heart

Come to my arms

Forever more stay in my arms

And give me your love

La, la, la, la

Don't go breaking my heart
