

Wonderwall, Together Again

...hayeahhhh...

A red black beetle crawls over my feet

It's little steps tickle

It gives me the creeps

I wash my hands and i wash my face

A fresh summer breeze catches my hair and I say

...hayeahhhh...

...hayeahhhh...

Went long the river it was a red night

My teddy fell asleep

Closed his black button eyes

It was a red night when I walked on my own

When my teddy awoke there's one thing I knew - cause we're

CHORUS:

Together again

Yeah forever together

Your heart is my home

Together again

Yeah forever together

Your heart is my home

The golden field, the sense of red nights

There's something lost

Cause we've forgotten to fight

The field is broken but the dream will survive

Plant a new appletree

Sisters of night

CHORUS

...hayeahhhh...

A red black beetle crawls over my feet

It's little steps tickle

It gives me the creeps

I wash my hands and i wash my face

A fresh summer breeze catches my hair and I say

...hayeahhhh...

Your heart is my home

...hayeahhhh...

Your heart is my home

CHORUS

...hayeahhhh...

Your heart is my home

...hayeahhhh...

Your heart is my home

...hayeahhhh...
