

# World War Four, Craw

Growing inside of me  
like an incomplete seed  
like the beginning of sin  
you better watch out.

Like a dog has its day  
how I swore you would pay  
every moment  
implore your destruction.

Man of conscience you're not  
one more promise forgot  
one more day til we meet  
well can you pray boy?

Man of patience sit tight  
while your knuckles turn white  
Now the end is in sight  
and I can taste it

To take another  
and hold him under  
For pain inflicted,  
its pure vindictive

Your karma get you  
come round collect you  
Its absolution  
im executing

We bleed together  
this is forever  
we share the breath  
so near to death

We bleed together  
dark come and get you

And my heart beats on...

Alone

Craw

Justice sweet when served cold  
like the lies that you told

Like your eyes when you stole  
you better hold tight

And it pushes you down  
is it nice when you drown?  
Regrets far too late now  
price of betrayal

Man of conscience you're not  
one more promise forgot  
one more day til we meet  
well can you pray boy?

Man of patience sit tight  
while your knuckles turn white  
Now the end is in sight

and I can taste it

To take another  
and hold him under  
For pain inflicted  
its pure vindictive

Your karma get you  
come round collect you  
Its absolution  
im executing

We bleed together  
this is forever  
we share the breath  
so near to death

We bleed together  
dark come and get you

And my heart beats on...

alone

Craw

Hunt you down

Craw
