

World Wide Message Tribe, Revolution

Comin on strong with a new direction
Take a new life with a total affection
Mind and soul living on the edge
See you comin on cos your life is dead
I never did go cos I never did see
Now Im gonna fight til the day I go free
Give it all you got, take a big shot
Step it up, live it up, fight til you drop
I can feel the power comin down on me
Fight for the Son with a new foundation
Shout to the world cos you never gonna stop
Come to the rock with a big revolution
Never look back when you take a big knock
Back to the wall run with the mob
Takin every tick give a stick to the dog
Give it all you got, take a big shot
Step it up, line it up, fight til you drop
I can feel the power comin down on me
I can feel the power comin down on me
