

Worlds Apart, Baby Come Back

Chorus:

Baby come back

wont you please come back

stay tonight, hold me tight

forever

baby come back

wont you please come back

lets feel all right, day and night

forever

why cant i pick up the phone

just to call you like before

to tell you how i miss you girl

youre the one that i adore

i guess im scared to loose you now

please forgive me all i did

cause baby if youll leave

youre leaving me crying, crying

chorus

everytime i close my eyes

theres a vision on my mind

i guess you are the reason why

baby please give me a sign

let me buildmy world around you

give you everything you need for baby if youll leave

youre leyving me crying, cyring

chorus
