Worldsapart, I Will

I watch the moonlight, baby,
down on you tonight
And as you're sleeping, I am hypnotized...
Just to steal this moment,
just to make it mine
I'll give everything I hold inside (inside)

You touch my soul with the love, I have never known
It's the flame that will always burn.

Whatever you ask me to sacrifice for you
I will, I will , I will
I will always be there for you, be forever true.
I will, I will, I will
Until time stand still I will

I will, only have to stop the hands of time from turning,
to spend my life just lying here with you (Ooh..)
Thought I know how to love
but now we're last on learning
though much more before this night is through (night is through)

I feel this love grow stronger
with every breath of beat,
every beat of my heart

Whatever you ask me to sacrifice for you
I will, I will , I will
I will always be there for you, be forever true.
I will, I will, I will, I will
Untill time stand still I will

I steal the stars away
And I'll stop the drivin' rain
to be with you every step of the way
When I look into your eyes
I see my only desire...

You touch my soul with the love, I have never known
It's the flame that will always burn...

Whatever you ask me to sacrifice for you
I will, I will , I will
I will always be there for you, be forever true.
I will, I will, I will

Whatever you ask me to sacrifice for you
I will, I will , I will, I will
I will always be there for you, be forever true.
I will, I will, I will

Whatever you ask
(you'll be my heart and soul)
me to sacrifice for you
(I've never let you go)
I will, I will , I will
(I got you always be mine)
I will always be there for you,
(I will stand your descrifice)
be forever true.
(and see the love inside)
I will, I will, I will
(I got you always be mine)
