Wrinkled Fred, Get wiser

Leave!
The destrucion way you follow
It will lead you astray
Open yourself! The perception's gift you ought to take
Try not to listen when you hear life's a bitch
Get wiser! Show them what you've got!
'You live in peace I live in pain'
Is that all you've got to say
All mistakes you use to make
Will come back and strike again
Ever thought of chaingin you point of view
Enough of pittin yourself enough seekin the truth
World's a friend through it may seem strange
Happiness is not out of your range
