

Wumpscut, Angel

Angel come to me to me come to me
Angel belong to me to me belong to me
Angel you have wings to fly fly to me
Angel do you doubt no need to have doubt

Angel feel my love my love for you feel my love for you
Angel carry me to you to your home to paradise
Angel I would lie for you for you just for you with my yearning heart
And angel I would die for you for you just for you with my burning heart

Angel don't feel liable for me and my pain don't feel liable
Cause angels must be free high up from this world in eternity

Angel I could clip your wings to catch all your love to calm your pain
But angel this would be so wrong you would bleed to death immediately
So angel come to me heal my glaring pain voluntarily

I love you
