

Wumpscut, I Want You

Oh god look at those guys oh god they're so cute
God I'd love to fuck one of them with that one guy
Do just like hold my hands down while the other guy
Makes me suck his cock and then they both
Would fuck me at the same time oh my god
I can't take it oh they both look
Like they could do that too just imagine
Being pulled down on the couch and my clothes
Are ripped off and just fucked and made
To suck him at the same time oh more than I can take
Why don't you cum in mouth and fuck me hard oh god
Turned on by them they're just coming in here right
And fuck me and rip my clothes off

I want you only for myself
I want you with all your screaming
I want you do want me too
I want you just for old human tradition
I want you there is no resistance
I want you with all your pain
I want you to lick your body 'til you're mad
I want you my proud swan
I want you to bleed
I want you you don't have to understand
I want you only for myself
I want you with all your screaming
I want you only for myself
I want you only you should be mine
I want you just for the time
I want you oh what a great torment
I just had your body and not your heart
I just had your body and all the pain

Get out of here out of my life
Get out of here you don't give me anything
But flesh and fear of not being good enough
But flesh and fear and just to pretend

Oh can't stand it just imagine anyhow
Fucking them both at once oh god oh god

Finally that's it say goodbye
Finally that's it for good and all
Move bitch get away from here
Piss off bitch you are only an animal
But I've eaten you with skin and hair
But I've eaten you we had a couple
You're worthless for me without any spirit of life
For this I'll cut you and you'll be eaten
Red lips should be kissed day and night
Red lips should be kissed now it's done
Should red lips be kissed while they are full of blood
As they will not miss you when you're strangled
