

Wumpscut, Wreath of Barbs (album mix)

Holy burning hand of wrath

And this flaming orbit of shame
Piercing forever through the heart
Grinding binding taking away
Ravages and splits the path
Wreath of barbs
Needles above the prey

Has a comalike effect
And bodies lay in decay
The injection of religion

Dreaming of a greener day
Grinding binding taking away
Needles above the prey

Wreath of barbs
Open eyes reading nothing
A sky harsh blue grins black
And I bleed and bleed in this wreath of barbs

And I run and run but I don't get far
