

# Wumpscut, Wreath of Barbs (album mix)

Holy burning hand of wrath

And this flaming orbit of shame  
Piercing forever through the heart  
Grinding binding taking away  
Ravages and splits the path  
Wreath of barbs  
Needles above the prey

Has a comalike effect  
And bodies lay in decay  
The injection of religion

Dreaming of a greener day  
Grinding binding taking away  
Needles above the prey

Wreath of barbs  
Open eyes reading nothing  
A sky harsh blue grins black  
And I bleed and bleed in this wreath of barbs

And I run and run but I don't get far
