

# Wurdulak, Gospels Of Depravity

[Lyrics by Maniac]

Breathe into my mind  
breed inside my flesh  
be one of my kind  
die if you neglect

I am the electric gene  
one who should detect  
the rotting skin of sin  
your eternal defect

prototype messiah  
disgusting creature abandoned  
teaching the false gospels  
i shall be your depravity

In my hands you're dead, dead  
although you're still alive  
part of my existence  
cancer of earth

die, die, die  
i shall not let you
