

# Wyclef Jean, Divine Sorrow (feat. Avicii)

Bless Them  
I go down to all rock bottom  
Now I know love in my heart is true  
Divine Sorrow  
I thank you for the joy that follow  
Back then my friend  
If only knew

It is harder  
when you love beyond belief  
But i'm a fool to let you go  
So this is for you my love

We will never  
we will never have a change of mind  
We belong together  
We will never  
We will never be the weary kind  
We sing our sorrows away  
We sing our sorrows away  
We sing our sorrows away

Divine blessing  
I wish I would have heard your lesson  
Now I know your words were my only truth  
I'm just venin  
Oh maybe i am done confessing  
Back then my friend  
If only knew

It is harder  
when you love beyond belief  
But i'm a fool to let you go  
So this is for you my love

We will never  
we will never have a change of mind  
We belong together  
We will never  
We will never be the weary kind  
We sing our sorrows away

We can make it through judgement day  
We won't go fading away  
All I ever know  
Must be everywhere you come from

We can make it through cloudy skies  
By your side I feel alive  
All I ever know  
Must be everywhere you come from
