

# Wynn Stewart, Angels Don't Lie

Someone told a lie again said they saw you out again  
But I know better angels don't lie  
I wonder why they pick on you and tell me lies the way they do  
Like just forget her but angels don't lie

It seems they'd know by now that our love is through  
And what you tell me I'll believe and I'll be true cause I love you  
And I just don't believe a word of all the stories I have heard  
Cause I know better angels don't lie  
( guitar )  
It seems they'd know by now...
