

Wynn Stewart, Down Came The World

Down down down came the world
I went round round round in a whirl
I built every dream around one girl
And then down down down came the world

She must have loved a little to be mine so long
How could lips that kiss so sweet lie and be so wrong
Our love was just the pattern of the perfect boy and girl
Now I've lost my every dream in this world

Well down down down came the world...
(piano - steel)
Oh down down down came the world...
Yes down down down came the world
