

Wynn Stewart, Half Of This Half Of That

Don't leave me half of this and half of that and all alone

If we never love again I'll know it's my fault
But I want you back again that's the reason I call
If you take half of all that we ever owned
You leave me half of this and half of that and all alone

Half of the love affair is all that we owned
Like the houses half paid for we've paid half alone
Oh please let me talk to you don't hang up the phone
Don't leave me half of this and half of that and all alone
(guitar + steel)
Half of the love affair...
