Wynn Stewart, In Love

Little girl blue come say you're mine
Leave all your cares and troubles begin
To live like people live in in love
Cause life is a trip if you got the fare
You gotta start here to get somewhere
Live like people live in in love

Keep your eyes on the wheel your mind on the grin'stone
Don't let troubles get in
But life is life and it's barely worth living
You've got to be out to be in
So little girl blue come say you're mine
Leave all your cares and troubles begin
To live like people live in in love

Keep your eyes on the wheel...
