

Wynn Stewart, Thousand Wonders

You don't hate me you still love me
Though many times I've made you blue
And you still want my arms around you
It's a thousand wonders that you do

You missed me when I tried to forget you
I even told you we were through
Oh how could you still want me near you
It's a thousand wonders that you do

With only one chance in a million
Well I'll make up for all I've done to you
Now did you know how much I love you
It's a thousand wonders that you do
(steel)
With only one chance in a million...
