Wynn Stewart, Thousand Wonders

You don't hate me you still love me Though many times I've made you blue And you still want my arms around you It's a thousand wonders that you do

You missed me when I tried to forget you I even told you we were through Oh how could you still want me near you It's a thousand wonders that you do

With only one chance in a million Well I'll make up for all I've done to you Now did you know how much I love you It's a thousand wonders that you do (steel) With only one chance in a million...
