

# Wynn Stewart, You're No Secret Of Mine

The gossip has started like I knew it would  
They saw us together they say you're no good  
Just let them keep talking cause someday they'll find  
That we love each other and you're no secret of mine

Before I would shame you I step aside  
You know I couldn't do that even if I tried  
So let's face them together and hold our heads up high  
We love each other you're no secret of mine  
( steel )  
Before I would shame you I step aside...  
Yes we love each other and you're no secret of mine
