Wynonna Judd, Can't Nobody Love You (Like I D

Can't nobody love you like I do Not now, no not ever There ain't no doubt I know this thing We have, could last forever Others may promise the stars in the sky But sooner or later you'll find Can't nobody love you like I do Can't nobody hold you quite this close All night like I want to Baby put your sweet lips here on mine You'll see 'cause I'm gonna show you Just how an angel like you should be loved I can't feel you enough Can't nobody love you like I do Can't nobody love you like I do Who knows when it's meant to be Well love knows and it sent you to me You don't know how I live for the day You look at me and you say Can't nobody love you like I do Can't nobody love you like I do Can't nobody love you like I do
