

# Wynonna Judd, Going Nowhere

There in the pale moonlight  
That's where you and I were walking  
I said? looking in your eyes  
I'm feeling like the sky is falling  
You said you gotta be free  
But love like this is everlasting  
I said? i gotta be me  
But I move my feet and nothing happens

True love is a funny thing  
'cause no one else does what you do to me

(chorus)

I'm chasing my tailspinning my wheels  
I got your heart hot on my heels  
I'm all dressed upbut I swear  
Without your love? i'm going nowhere  
Fast or slow  
You can say I told you so

I've done thati've been there  
But without your lovei'm going nowhere

Time I've got a lot of that  
Day and night baby I been thinking  
How soon do I want you back  
Sooner than you can say you need me

True love is a funny thing  
'cause no one else does what you do to me

(repeat chorus)

Oh, what you do to me  
I just can't get away from what used to be  
Your love is all I can dream about  
Oh, baby you got my head spinning 'round

(repeat chorus twice)
