

Wynonna Judd, Let's Make A Baby King

Once upon a Christmas morning
There was a pretty little baby boy
It seems like I remember sadness
Mingling in the joy
For Mary saw the future
And the sadness it would bring
And that's when Mary started crying
When she heard the angels sing
[Chorus]
Let's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby king
Now, you remember little King David
He's the little baby's kin
He's cousin to the man named John
And I know you all remember him
And John said, "Let's get ready!"
The herald angels sing
'Cause this old world needs to know
The good news that I bring
Let's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby king
Now we could use a revolution
The world is turned upside down
We need a new direction
We've got to turn this whole thing around
And we need a Lord to guide us
Teach us wrong and right
And we need a lamb to lead us
Into the land of light
