

Wynonna Judd, My Angel Is Here

they say there's a state of heaven
somewhere way beyond the clouds

i know there's a piece of heaven
in every little thing that you do
'cause every time you walk in the room
my angel is here

lying, saying I ain't loney
crying, when no one sees my tears
im dying when everyones disowned me
and tonight i pray for help to get through
when i felt you leave me i knew
my angel is here

im so protected and heaven's so near
when i am under your wing
my woulds are healed and my spirit is clear
come on angel make my heart sing

so when im lost and alone who will find me
who's there whenever i call
show me the way to the strength that's
inside me
pick me up whenever i fall

you say love is no condition
each soul is free to come and go
stay strong i don't need permission
'cause paradise is waiting for me
every time i hear my heart speak
my angel is here
