Wynonna Judd, Rescue Me

Lyrics by: Katherine Darnell

What do you do when you're scared inside? When all of your feelings just seem to collide Emotions just seem to let go All of your tears always follow

All of these things that you're feeling deep down And you realize that you're calling out loud

Chorus
I love Thee
Rescue me
Shine your light lead me home
Lord, all I need is your love
I love Thee
Rescue me
Shine your light lead me home
Lord, all I need is your love
Rescue me, rescue me

What do you do when the path leads nowhere? When you need someone to be there Now you're afraid of what's gonna come And now there's nowhere to run

All of these things that you're feeling deep down Then you realize that you're calling out loud

Chorus

Bridge
Oh it's love's sweet salvation
With Christ the Blessed Lamb
We can get through anything as long as it's you and me

Repeat Chorus
