

# X Ambassadors, Don't Stay

lately I've been thinking  
you've seen the worst and you've seen it in me  
I gave you every reason  
every reason to get up and leave

I know that there's times  
that you get so tired  
and you know I want you to stay

but don't stay for me  
don't stay for me  
if you got to leave  
do what you need  
but don't stay for me  
don't stay for me

baby, I've been thinking  
that you've been hurt  
and it's because of me  
baby, my ship is sinking  
so don't go over  
don't try to save me

I know that there's times  
that you get so tired  
and you know I want you to stay

but don't stay for me  
don't stay for me  
if you got to leave  
do what you need  
but don't stay for me  
don't stay for me

don't stay for me  
don't stay for me  
if you got to leave  
do what you need  
but don't stay for me  
don't stay for me
